

REMARKS

A new title has been supplied in accordance with the Examiner's requirement. Claim 13 has been rewritten to overcome the objection thereto.

Claims 1-7 and 9-12 were rejected under 35 U.S.C. §102(b) as being anticipated by Sato, U.S. Patent No. 6,806,919 B1. Claims 8 and 13 were rejected under 35 U.S.C. §103(a) as being unpatentable over Sato in view of admitted prior art (AAPA).

Independent claims 1 and 7 have been amended to provide that the case in which the display unit is installed has a rigid hollow rectangular cross-section.

In contrast, what the Examiner conceives to be a case in which the display unit is installed in Sato, citing Fig. 3, reference 1, is actually a frame 1 with an upper frame 1A and a lower frame 1B, foldable with respect to each other (column 3, lines 63-67; column 4, lines 10-18; column 5, lines 4-17).

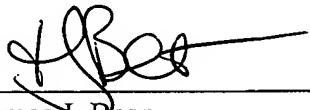

CLOSING

An earnest effort has been made to be fully responsive to the Examiner's objections. In view of the above amendments and remarks, it is believed that independent claims 1 and 7 are in condition for allowance, as well as those claims dependent therefrom. Passage of this case to allowance is earnestly solicited.

However, if for any reason the Examiner should consider this application not to be in condition for allowance, he is respectfully requested to telephone the undersigned attorney at the number listed below prior to issuing a further Action.

Any fee due with this paper, not fully covered by an enclosed check, may be charged on
Deposit Account 50-1290.

Respectfully submitted,
